Kabir's Kreation's

Kabir loves making torans and haars.
His preferred flower is the marigold, but he is willing to give others a try.
Right now, he tires after completing five items at a stretch.

He likes to know who he is making them for and where they will be put up.
Kabir is learning to go to the market and select the flowers. He works out the design with help.
What he enjoys the most is hand-delivering them to your home ... and helping you put them up.

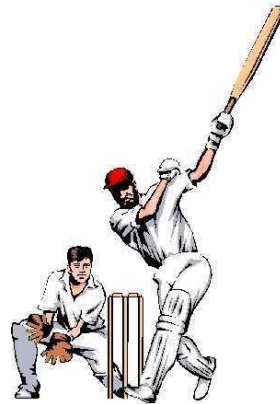

So if you need upto 5 torans
Stay up to 5 kms from Grant Road
and are okay with your order being
delivered on the previous evening,
Kabir is your man!
